

Low profile independent runway dual scissor lifts

The **ERCO335T** low profile dual scissor lift range has been developed to cater for all applications and needs. Runway design (with extensions or flaps) and hydraulic system type (with dual pair of master/slave cylinders without rack, or with two cylinders and mechanical racks) lets the user define the ideal lift for their work needs.

Unique arm geometry for maximum stiffness and minimised space usage.

Runway and base with self-lubricating maintenance-free sliders.

Special initial lift assist linkage for lifting loads even at minimum runway height.

TECHNICAL DATA

Max. capacity	4300 kg
Lifting/lowering time	40 s
Pneumatic power supply	4-10 bar
Power supply	230-400V 3ph 50-60Hz 230V 1ph 50Hz
Electric motor power	3 kw
Max. lifting height	1900 ÷ 2000 mm

STANDARD EQUIPMENT

- *Set of 4 rubber pads*

ACCESSORIES ON REQUEST

8-41100143 Angle protection kit for pipes

8-42300047 Pair of beams for all-terrain vehicles

8-42300027 Kit of 4 rubber blocks height 80 mm

IMAGE NOT AVAILABLE

8-41100128 Remote control with 10 m cable
